

Unicol Axia Hi-level Stand

Axia AX1500P Hi-Level Stand is ideal for 30-50-inch screens.

It takes only a few minutes to set up your screen (extra) and other equipment, and avoids complications of drilling and chasing cables as when screens are wall mounted. These elegant and adaptable units can be placed anywhere in the room and positioned to achieve the best viewing angle. Lo-levels are ideal for small reception waiting areas and small training rooms, whilst the Hi-Levels provide quality and style for boardroom or commercial display.

It has full cable management, 4-way power socket, plasma/LCD mount.

Specification

150cm to centre of screen
Base size 76cm wide x 58cm deep
