

Product Specification Sheet

Vued Translucent Frame 15" Digital Display

- Bright, wall mountable LCD screen with an impressively high resolution of 1024x768 pixels
- Displays images, video files and plays MP3 music through the quality integrated speakers
- No connection to a PC needed, simply copy your files onto a compatible memory card or a USB Flash Drive and insert into the Digital Display
- 1GB built-in memory allows displays to be stored on the product itself, meaning you don't have to leave memory cards or the USB exposed to potential tampering
- Create slideshows with a choice of transition effects and timing, with the option of playing music in the background
- Remote Control and Desk Stand included
- A 1GB Flashdrive is provided to store and transfer displays, but it also holds backgrounds and images to download to your PC to help you create eye-catching displays
